01 July 2017

RE: European Union RoHS Directives

All OMNI Customers,

OMNI Flow Computers, Inc. is committed to demonstrating the highest standard of global quality and environmental management. OMNI Flow Computers, Inc.'s is required to comply with the RoHS Directive (2011/65/EU) material restrictions, conformity assessment and CE-marking requirements for all of our flow computers and spare part products (*Industrial Monitoring and Control Instruments*) prior to the mandatory date of 22 July 2017 set out in the RoHS Directive (2011/65/EU). Beginning on 01 July 2017, all flow computers and spare parts shipped to customers outside the United States will be fully compliant with the RoHS Directive (2011/65/EU).

tel: 1.281.240.6161
fax: 1.281.240.6162
www.omniflow.com

OMNI Flow Computers, Inc.'s dedication to our customers is demonstrated by our compliance efforts as they apply to the following European Directives:

European Directive 2011/65/EU—*The Restriction of Hazardous Substances (RoHS)* restricts the use of six hazardous substances in electrical and electronic equipment. OMNI Flow Computers, Inc. products currently required to comply with RoHS are Category 3 products (IT and Telecommunications Equipment) such as industrial computers, monitors, and accessories. OMNI Flow Computers, Inc. models 3000//6000 and 4000//7000 product series are fully compliant with the material restrictions, conformity assessment and CE-marking requirements of the RoHS Directive (2011/65/EU).

All inquiries regarding OMNI Flow Computers Inc., compliance, should be directed to quality@omniflow.com.

Sincerely,

Donna Kelley
Quality Manager
OMNI Flow Computers, Inc.
